

**Prof. Dr. Melvin S. Finstein**

born 1931 in Cambridge, Massachusetts; died 2012

Prof. Finstein was a pioneer in the research about the mechanisms of forced aeration of compost piles. He developed the technology of temperature feedback by forced aeration. Next to that he did a large range of research about the microorganisms involved in the composting process.

Education:

- Massachusetts: High School High & Latin
- A.A.S. degree: Long Island Agricultural and Technical Institute, 1953
- u.s.Army: 1954 - 1956
- B.s. degree: Cornell University, 1959
- M.S. degree: Cornell University, 1961; (Thesis : Competition for nutrients between soilbacteria and *Fusarium oxysporum*)
- Ph.D. degree : University of California, Berkeley, 1964 (Dissertation : Molybdenum and the physiology of *Nitrobacter*)
- 1964-1967: Assistant Professor, Rutgers University, Cook College, Department of Environmental Sciences
- 1967-1970: Associate Professor, Rutgers University, Cook College Department of Environmental Sciences
- 1972-present: Professor, Rutgers University, Cook College, Department of Environmental Sciences

Member:

Sigma Xi

Water Pollution Control Federation American Society for Microbiology International Solid Waste Association Society for Industrial Microbiology

Selected Activities:

- Served on International Standards Organization committee. Contributed to methodology for nitrifying bacteria and Salmonellae.
- Served on American Society for Microbiology Committee for curriculum development - microbiology course in 1 year M.S. Engineering Programs.
- Instructor UNESCO/UNEP/WHO course in Environmental Microbiology, University of the Philippines .
- Organized Symposium for American Society for Microbiology "Environmental Control: Rational Management of Microbial Ecosystems".

Reviewer for:

- Journal of Water Pollution Control Federation Applied and Environmental Microbiology
- Canadian Journal of Microbiology
- WasteManagement & Research
- National Science Foundations. Environmental Protection AgencyU.S. Department of Agriculture and other journals and agencies.
- Appointed to National Research Council Committee (National Academy of Sciences) to give seminars in Tunisia on Management of Urban Waste {1984}.
- Invited speaker at conference on composting organized by the European Economic Community, Oxford{1984}.
- Successfully redesigned a failed wastewater sludge composting facility (1985).
- Invited contributor to the chapters on composting in a book published by the German Chemical Society (1986), and others as listed.
- Invited speaker at conferences on composting in Greece, Germany, Israel (1989).
- Special advisor on composting to the Wastewater Reclamation District of Greater Chicago {1990}.
- Special advisor on composting to Ocean County, New Jersey (1991-present)
- Special advisor on composting to Morris County, New Jersey (1992-1993).

Teaching:

Undergraduate and graduate courses in: Pollution Microbiology, Lecture; Pollution Microbiology, Laboratory; Solid Waste Management, Lecture.
